so far as the ultimate toper is con-certical has resulted in the resort to the issual cheaper fluids containing alcohol. Tichenor's antiserate refringerant, Ja-milica singer, bay run. Stoan's hor-ment, ismon extract and either bever-ages made popular by dry legislation, the consequences of nation-wide des-sication has turned the inventive genius

Sellers of boose wishing to be at least arrive on the square are said to have besorted to the practice made popular hitherto is regions more arid than Membrish known as "stretching a case." It is not an unknown fact to physicials that but water will dissolve the giue on a label or government stamp. Chemists are familiar with the fact that two-thirds of a buttle of whisky can be made into a whole bottle as far as apparance is concerned by the addition of water and a little giverin to give the find its "age" as revealed in the "bend." A small amount of carmel coloring which is merely burnt sigar reduced to uniform consistency, will give it a fine ripened color. Violation of one federal statute has been known to give courage to break another and the removal of a government stamp by the glue dissolving process is a simple affair. There was revealed not many weeks ago in a neighboring city a "laboratory" for the work of stretching cases.

Several tubs of warm water contained bottle after bottle of whisky just smuggled in, which were undergoing the process of label dissolution. A negro helper was caught pouring out a portion of each bottle and filling them up with water. giverin and coloring The green stamp carefully soaked out

with water, glycerin and coloring. e green stamp carefully soaked off inct was replaced, the bottle allowed dry and then sold at current prices.

Strangers "Wised" Quickly. Whatever the source of the slightly limited volume of the stream of intoxicants flowing into the Memphie markets there is little apparent difficulty in one getting the stuff providing the price is paid. A good example of this was noted Sunday when at the very first performance of a vaudeville show at a local theater one of the performers apparently "wised" early after his arrival provoked a storm of applause by interpolating into his act the line, "You can get it for twelve bucks' at Monroe

out the fallacity of such financial rea-soning.

Auditors who have gone over the city books for the past 10 years, invariably have pointed out that the city is pro-fiding no sinking fund for the retire-ment of its general liability bonds. The lax rale committee did not call atten-tion to this condition, feeling that it was not properly, a part of the report on this year's tax rate requirements. Mem-bers of the committee, however, in their recommendation that a complete survey of the city finances be made, hinted at that condition and later when the present controversy has been decided one way of the other it is probable that the general committee will make an ef-fect to have such services. **EXAMINATIONS** for the general committee will make an ef-fort to have such a survey made, either at the city's expense or through funds Examinations for all teachers desiring to secure State Certificates ecured by private subscription or brough the Bureau of Municipal Rewill be held July 17 and 18. The white teachers will be examined at

Budget Heavily Padded.

The city administration's budget estimates included the item of \$850,000 of money borrowed on short term revenue notes, and \$58,000 overdraft. The committee report pointed out the fact that these items had no place in the budget estimate, as they represented moneys spent during the first half of the year in regular department expenditures, pending the filing of appropriations for the various departments. Mr. Pashby, before the City club, admitted that the committee report in that matter took the correct view. The fact remains that the item was included in the published city statements, which are what

that the Hem was included in the pub-lished city statements, which are what the taxpayers of the city would have had to rely upon as a correct state-ment of the city's financial needs, if the tax rate committee had not pointed out the fallacity of such financial rea-soning.

Cool Million Cash In County Treasury First Of Last June

There was a cool million dollars in ash and a few thousands of dollars nore for good measure, in the treasury of Shelby county on the first day of

une.

The exact amount, as shown by the eport of J. A. Heard, chairman, to the cunty court, is \$1,098.185.04.

It may therefore safely be assumed hat Shelby county finances are in rather good shape, and that there is possibly no imperative need that the county tax rate should be increased over the mount fixed last year, which was 1.68. The High School exa mination consists of the following groups,

1 68. Much of the funds held in bank and

by the county trustee, comprises spe-ual funds, held for sinking fund of in-terest accounts, or for other special accounts and cannot be expended ex-cept for the purpose for which the tax levy was made.

levy was made.

The funds over which the county commissioners have control include balances in the road and turnpike fund, \$137.614; bridge fund, \$83,768; and general county fund, appropriated for the commission evpenses, \$30,728. These are funds available for the remainder of the year, exclusive of any additional taxes that may be collected from any sources.

There was a balance in the general coans and country.

The report shows a balance to the criedit of the auditorium market house building fund of \$381,395, and a similar balance to the credit of the auditorium market house building fund of \$381,395, and a similar balance to the credit of the city and county tuberculosis hospital of \$34,381. It has been estimaced by some members of the county court tax rate committee that there is such a large balance in the bridge fund that there will be no necessity of levying a special bridge tax this pear, leaving the scent levy to be applied to some other fund or to be dropped, this aiding in keeping down this year's tax rate.

Committee that may be collected from any sources.

Loans and coverdants.

IN SATURDAY'S SHOOT

George Schmidt, amateur, was high gun Saturday in the weekly matines of the Memphis Gun club with a murk of 49 targets in a 50 hatch. H. D. Gibbs, professional, was tied with Schmidt with the same score Second place went to Hughes with its Buford, a pro, also was third. Mrs. F. J. Hixon, with 42, led the women shooters. Most of the members of the local colony were in Tunica and only a small entry list started.

INSTRUCTIONS.

1. Read carefully the pledge before signing it. All papers must be handed in promptly at the expiration of the period designated for that subject, and they cannot be recalled for any correction or alteration.

3. Any applicant giving or receiving help in any way a shown by undue similarity in papers cannot be granted a cer-tificate, and may be prosecuted to the limit of the law. The fine is not less than \$100.00 and may be accompanied by im prisonment.

4. Do not take note books, text books or reference books into the examination rooms.

5. Place the number given you on every paper. Do not write your name on any paper. 6. If you are not eighteen years of age, do not write re

plies to the examination questions. Your papers will be graded. 7. Direct all inquiries about the report of the examination to your County Superintendent. Do not write to the State

8. Pin all sheets of your paper on any subject securely together. The Grading Committee cannot be responsible for the loss of any part of a paper when this is disregarded.
